Played this game for over 18 hours. Loved it! Story was very enjoyable! Ignore the negative reviews. ♥. **This is a copy of my review for the [original game](#). Most of my time is going into that one. *For now.***

[There are few things new buyers should be aware of:](#)

[1. This game is not in any shape or form similar to Transport Tycoon. You won't be optimizing routes, building long-lasting production chains, planning complex routes for dozens upon dozens vehicles, etc. etc. Instead you will be managing up to 15 not-so-smart trucks making sure they can fulfill demands of each and every town you find. Which can get a bit hectic.](#)

[2. This game is for patient people. You probably won't experience the real difficulty it can throw at you for a while \(and by that I mean many hours of preparation and unlocking every tool the game can offer you\)](#)

[3. Many reviews mention "having to overcome UI", well, it got much better. And it keeps improving. In all honesty, being late to the party, I haven't had much trouble with figuring it out.](#)

[4. This is not an achievement spam game. Each and any of the achievements require work. Sure, some are extremely easy, but some others are very hard.](#)

[As for the game itself, it's the most addicting purchase I made in years. After playing for few hours I just bought everything that was available at the moment, because I knew I'll play it eventually. It might not be for everyone, probably far from it, but it's a great game if you can see its charm.. Application is too slow. When i start up The Puzzle Room it gives me a warning that the Application is too slow and. It Works just fine on my friends geforce 780 But not om my geforce 1070. Please explain.. The Isle of Wight add-on is great despite its age and rather small size. This is my third DLC purchase after Sacramento Northern and the Frankfurt U-Bahn. It doesn't have as much content or trackage as those newer routes, but like to see it as a combination of both, a short-distance train service operated with ancient, yet wonderful trains. This is a good choice for TS beginners.](#)

[The 483's are easy to drive, and they have quite an unique charm being ex-London Underground trains. The interior is nice, although it shows the age of the 3D modelling. There's a little personal carrier for track maintenance which is cool, but the cab doesn't have any visible controls and I think there's no vanilla scenarios where you drive it, you need the workshop for that. I still haven't got the chance to drive on the steam branch, as I need to learn steam driving first \(I'm still a novice in TS\) but I've been told the locomotive is easier to operate than most steam engines and I might use it sometime to learn.](#)

[Being a small route, it has excellent performance, and there's plenty of scenarios for it, career, standard, and from the](#)

[workshop as well. There's also extensions of this route on the workshop, with more modern rolling stock, but they require further DLC. The route itself looks good, especially on the pier part. A little remainder to newcomers: make sure your Scenery Density slider is set to 10 \(maximum\) otherwise some props will not appear, like a couple of bridges between Ryde St. Johns and Smallbrook Junction. I briefly thought this was an oversight; thankfully, it wasn't.](#)

[There are a few grips with this route, but they are very minor and I think they don't truly affect the experience. The headlights of the 483 do not have effect when traversing through the Ryde tunnel, it remains dark regardless if you have them on or off. The reversing handle is defaulted to neutral like every train, however the model of the handle is placed in the forward position instead of neutral, and when you move it for the first time you'll notice how it instantly swaps positions. There's no cab light, although I'm not quite sure if the real island trains have cab lights or not, so this may not be a mistake. I already mentioned the lack of visible controls on the personal carrier, and also no vanilla scenarios where you play with it, but the workshop has a few.](#)

[Either way, I like this route, and I totally recommend it. It doesn't have freight services, but it's good if you just want to do some light passenger duty and have rather limited time. Driving back and forth takes like an hour or so.. I found out about this game through reddit. I am satisfied and haven't looked back since :\). Game Information](#)

[Gnome Garden 3: The Thief of Castles is a Strategy game that was developed by Jerzie and published by 8 Floor Games.](#)

[The third chapter of the game's series. Previous installments as follows: "Gnome Garden" and "Gnome Garden 2."](#)

[Game Visuals](#)

[I want to mentioned that the visuals in the game is well done. The visuals can be adjusted in the game's option menu.](#)

[Game Audio](#)

[I want to mentioned that audio for the game is well done. Even though the audio is somewhat simplistic and repetitive. The audio can be adjusted in the game's option menu as well.](#)

[Gameplay](#)

[There is game difficulty modes to choose from. All levels has their own difficulty.](#)

[This is a strategy game, where careful planning is required, due to limited amount of resources that are available.](#)

[There are four different landmasses with the total of forty-nine levels. Each of these levels has a set of objectives that needs to be completed.](#)

[The level objective tasks can be chained together. As long there is nothing blocking the path and/or enough resources in the storage bins.](#)

[All levels has the total of three stars. They are earned from playing the game. The amount of stars that is earned, it depends on how fast the level was completed. There is an opportunity to replay levels for better star rating.](#)

[There are special bonus power ups to help complete the level faster. These special bonus power ups comes with a time limit. But they can be used again after they have been recharged overtime.](#)

[There are twenty-three different achievements that can be unlocked from playing the game. Each of these achievements does come with some requirements that needs to be completed before they can be unlocked.](#)

[Miscellaneous](#)

[There are five different trading cards to collect. You only get three of those trading cards from the game. There are several ways to get the rest of the trading cards: Purchased from the Steam's Community Market; Trade with friends; Booster Packs](#)

and its' Booster Pack Creator.

Final thoughts: I have found the game enjoyable to a certain extent. The replay value for the game is low. I would recommend this game, but not at the game's full price value.

I wouldn't say it's stealth strategy at it's best but it gave me my stealth fix for a few hours.

The puzzles are pretty easy to work out even if some of them might take a couple attempts towards the end.

Achievos are easy to 100%.

7/10. Fun game on a mind-bending surface!. This DLC is extremely unfair to be honest.

The game takes away all your gear and potions. The vendors in Act V don't carry potions to cure debuffs. Unless you have a caster that can heal everything, you're screwed.

Extremely difficult even on the easiest difficulty. If you don't have a perfect party, you're screwed. There's no way to back out once you start too. Only way is to completely reload a old save before you even started (usually at the end of Act IV).

V out of X. I guess I just spent 7 for this.

I mean, the things are nice, but in the end, the pack doesn't really have content to be worth 7.. I accidentally got this as a gift instead of the first one

I got machine guns so it's cool either way
